ALTO LUX

Compact and considered, the Alto Lux brings acoustic control and warm, directional light together in a 430mm (17-inch) drum pendant, designed for intimate commercial settings and layered ceiling compositions, shaping quieter zones for focused work and breakout spaces.

- ✓ **Acoustic**
- ✓ **Bleach Cleanable**
- ✓ **Easy Clean**
- ✓ **Easy Install**

Description

Some spaces ask lighting to do one job and acoustics to do another. **Alto Lux** refuses that separation. By combining independently tested acoustic absorption with a warm, directional LED source in a single suspended form, it addresses two design challenges at once. The drum body utilizes Helmholtz-inspired resonance to target low-bass and speech frequencies, absorbing sound as naturally as it catches light to ensure conversation carries clearly while ambient noise recedes.

At 430mm (17 inches), Alto Lux is a compact solution for the 'space within space'. It settles comfortably into breakout areas and meeting alcoves, drawing the eye downward to gently define smaller zones. The PET body softens the edges of a room, while the deliberate light source enhances materiality and brings natural warmth to the surfaces below.

Where a space requires acoustic control without the visual weight of a full ceiling treatment, a cluster of Alto Lux pendants resolves both disciplines in one specification decision.

Technically robust and specification-ready, the Alto Lux features a CRI of 90+ to render colour and texture with honesty and depth. It is UL and cUL certified, DALI-compatible, and ships fully assembled for easy installation across flat, voided, or suspended ceilings.

For complete design flexibility, Alto Lux is available in both lit and unlit (Alto) forms. This allows designers to cluster fixtures in varied ceiling compositions while maintaining a consistent visual language—bringing focus, softness, and intention to every space it occupies.

System includes:

Pendant, Light Panel, ASKs 5' (1.5m) & Cover Plate.

**Dimmable driver is not included.

Class 2 Driver Not included.

Available separately 96w, 2 x 96w or 3 x 96w

How to Specify

1. Size Space
2. Pendant Size
3. Installation Hardware
4. Colour or Print

ALTO LUX

Composition	Zintra Acoustic Panel - 95% Polyester + 5% PLA 12mm (1/2") -Density 2.4 kg /m² 0.5 lb/ft
Sustainability	Zintra is made from 100% recyclable materials. • 60% post-consumer recycled content from PET bottles. • 35% pre-consumer recycled content from PET chips • 5% polylactic acid (PLA)
Dimensions	17" (430mm) d x 23.9" (608mm) h
Fire Rating	ASTM-E84 – Class A classification AS ISO 9705 – 2003 – Group 1 classification EN-13501 – B-s2-d0 classification
Acoustic Rating	Up to 1.85
Supplied As	Pendant, Light Panel, ASKs 5' (1.5m) & Cover Plate **Dimmable driver is not included. Class 2 Driver Not included. Available separately 96w, 2 x 96w or 3 x 96w
Assembly & Delivery	Ships assembled, requires a licensed electrician for installation. Go to the Technical Documents and download the Installation Guide for more details.
Suggested Installation	Go to Technical Documents and download the Installation Guide for more details.
Care Instructions	Vacuum to remove dust. Dab Zintra with a damp clean cloth and mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. For difficult stains, use a solution of household bleach (10% bleach / 90% water). To remove the bleach, repeat using a clean, water dampened cloth, then pat dry. Always test in an inconspicuous area first and if you don't see the expected results, contact us.

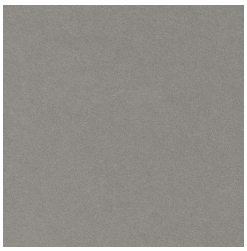

ALTO LUX

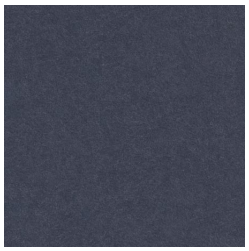

Customisable	The Zintra Acoustic Solutions range is customisable to your project. Please get in touch with your local contact for details.
Additional Comments	NRC Up to 1.85 Led Panel: 13.9" (355mm) d LED Power (W): 12W Luminous Flux (lm); 669 Frequency (Hz): 50/60 Power Factor (lm/W): 54.9 Beams of Light Average: 116 Input Voltage; 24v CRI: 90+ Colour Temperature 3500K USA/AUST
